

State Innovation Model – Round 2
Steering Committee
Goals and Milestones

Purpose

The Steering Committee is responsible for ensuring the completion of a comprehensive, innovative transformation plan. The Committee will also develop a plan to structure and fund on-going health innovation work, provide direction on the communication and outreach plan, develop a plan that will maximize federal funding, and approve metrics and an evaluation plan. Additionally, the Committee will coordinate efforts between committees, ensure the process is on track and all milestones are met, and resolve conflicts. It will approve the final State Health Innovation Plan and a public dashboard to track progress toward plan goals.

Goal

- ✓ **Oversee the development of an innovative implementation plan for comprehensive health care transformation for submission to CMMI by January 31, 2016.**

Action Plan

Mtg	Action	Due Date
