

**State Innovation Model
Workforce Development Committee
Goals and Milestones**

Purpose

The Workforce Development Committee is responsible for developing a plan to help build a workforce that will support healthcare transformation now and in the future. In particular, the Committee shall identify and encourage the growth of professions needed to support the delivery of more patient-centered primary care.

Goals

- ✓ **Develop plan to support “emerging professions”**
- ✓ **Develop a plan to provide CME and practice support for behavioral health to primary care providers**

Guiding Principles

The recommendations in the project plan shall reflect the following:

- ✓ Shall support the workforce needs identified in proposals prepared by the following committees:
 - Delivery and Payment
 - Population Health
 - Oral Health, and
 - Health Information Technology.
- ✓ Shall consider the recommendations in the Hawai'i Healthcare Workforce 20/20 Plan and Report.
- ✓ Shall incorporate provider and consumer feedback into the innovation plan.

Action Plan

Mtg	Action	Due Date
1	Develop strategy and recommendations to address supporting the needs of emerging professions (e.g. community health worker, community pharmacist).	Jun 25
2	Continue to develop strategy and recommendations to address supporting the needs of emerging professions (e.g. community health worker, community pharmacist).	Jul 23
