WHEREAS, based on the twentieth Proclamation and the Emergency Rules, the effort to issue development agreements that allow for the construction of homeless dwelling units is underway;

WHEREAS, more time is needed to continue the construction of homeless dwelling units and to relocate homeless individuals and families to completed dwelling units;

WHEREAS, there is a need to transition the effort to help the homeless population to include supportive services to begin to address the causes of homelessness;

WHEREAS, people with poor mental health are more susceptible to the three main factors that can lead to homelessness: poverty, disaffiliation, and personal vulnerability. Because they often lack the capacity to sustain employment, they have little income. Poor mental health may lead them to withdraw from friends, family, and other people. This loss of support leaves them with fewer resources to cope with in times of trouble. Mental illness can also impair a person's ability to be resilient and resourceful; it can cloud thinking and impair judgment. For all these reasons, people with mental illness are at greater risk of experiencing homelessness;

WHEREAS, these frequent utilizers of emergency and homeless services often present with co-occurring illnesses and need specialized care that requires clinical expertise to evaluate their physical and mental impairments and to assist in overcoming barriers to accessing proper medical treatment and resources to meet basic needs like food, hygiene, safety, and transportation.

WHEREAS, the lack of triage, crisis, and treatment services has been a major gap in the State's system of behavioral health care for homeless persons and others with mental illness or substance use disorders. The safety and constant supervision available in triage, crisis, and treatment centers are in stark contrast to the chaos and vulnerability individuals experience on the street;

WHEREAS, community-based mental health services play an important role. Homelessness could be drastically reduced if people with severe mental illness were able to access supportive housing as well as other necessary community supports; and

WHEREAS, the creation of more permanent affordable housing, permanent supportive housing, transitional housing, shelter space, and mental, behavioral, and physical support services for people experiencing homelessness and those at risk of homelessness is necessary to protect the health, safety, and welfare, not only for individuals experiencing homelessness, but for all residents of the State, but it must be done in a way that is respectful to our environment, our history, and our *iwi kupuna*.

NOW, THEREFORE, I, Josh Green, M.D., Governor of the State of Hawai'i, hereby determine and proclaim that an emergency contemplated by section 127A-14, Hawaii Revised Statutes (HRS), is continuing in the State of Hawai'i, and in order to promote and protect the public health, safety, and welfare of the people of the State of Hawai'i, and to prepare for and maintain the flexibility to take proactive, preventative, and mitigative measures to minimize the adverse impact that the present emergency may cause on the State, and to work cooperatively and in conjunction with federal and county agencies, do hereby invoke the following measures under the Hawaii Revised Statutes:

IV. Enforcement

No provision of this Proclamation, or any rule or regulation hereunder, shall be construed as authorizing any private right of action to enforce any requirement of this Proclamation, or of any rule or regulation. Unless the Governor, Director of Emergency Management, or their designee issues an express order to a non-judicial public officer, no provision of this Proclamation, or any rule or regulation hereunder, shall be construed as imposing any ministerial duty upon any non-judicial public officer and shall not bind the officer to any specific course of action or planning in response to the emergency or interfere with the officer's authority to utilize his or her discretion.

I FURTHER DECLARE that notwithstanding the termination of this emergency relief period, all contracts and agreements entered into and all procurements started during the emergency relief period shall continue in full force and effect until expiration or termination of the contracts and agreements, and all construction projects commenced during the emergency relief period shall remain covered by the terms of this Proclamation through completion of construction.

I FURTHER DECLARE that this Proclamation or subsequent emergency rules is not intended to create, and does not create, any rights or benefits, whether substantive or procedural, or enforceable at law or in equity, against the State of Hawai'i, the counties of this State, or any State or County agencies, departments, entities, officers, employees, or any other person.

I FURTHER DECLARE the disaster emergency relief period shall commence immediately and continue through May 15, 2026, unless terminated or superseded by separate proclamation, whichever shall occur first. Following the termination of a disaster emergency relief period, any contracts, agreements, procurements, programs, or employment of personnel entered into, started, amended, or continued by reason of the provisions of the proclamation relating to this emergency shall continue in full force and effect to the extent allowed by law.

These rules shall apply only to those construction projects of temporary or permanent housing for people experiencing homelessness or who are at-risk of homelessness which are certified by the Coordinator on Homelessness (“Coordinator”) as having met the requirements for eligibility set forth in these rules (“Certified Projects”).

Certified Projects do not require further state approvals to proceed with the project. Certified Projects will not be subject to the state regulations suspended under the Proclamation.

Certified Projects are still required to seek applicable county approval in the appropriate county where the project is located. The counties may adopt an expedited approval process to support the provision of housing for homeless individuals and families while still ensuring that improvements constructed pursuant to the Proclamation meet life safety standards as defined by the counties.

The Coordinator may also approve the application of the suspension of laws set forth in the Proclamation for projects proposed by state agencies where the use of the suspended laws shall be for operational functions of the agency or to repair, renovate, or refurbish existing housing for use or occupancy by people

experiencing homelessness.

§ 4 Determination of Project Eligibility.

(a) Project proponents seeking to have the terms of the Proclamation apply to their project shall submit to the Coordinator the following documentation:

- (5) A conceptual site plan showing the general development of the project site including the locations and descriptions of proposed and existing buildings, parking areas, unusual site features, proposed and existing major drainage facilities;
- (6) A development plan including the number of units, maximum occupancy, construction method, and infrastructure needs. The infrastructure needs should include a description of methods of sewage and solid waste disposal and sources of water and other utilities as well as depth and location of any trenches required;
- (7) The proposed funding for the project, including the manner in which the project will be funded during the development and construction of the project, and upon completion of the project and sources of repayment of financing, if applicable. Once the reviews are complete, the Coordinator may certify the project and the project may proceed to be developed under the Proclamation. The project proponent shall provide the following information to the Coordinator:

 - ii. if there will be any construction-related discharge to state waters (e.g., hydrotesting, dewatering); and

§ 5 Project Development Agreements

If, after reviews under section 4 of these rules are complete and the Coordinator finds that the project proponent has submitted the required project information under Section 4(a), the Coordinator may accept the project as qualified under the Proclamation. The terms and conditions of the development agreement shall include:

(a) The purpose of the agreement, which shall include the development of dwelling units for homeless individuals or families;

(b) A description of the role and responsibilities of the project proponent and other parties to the agreement;

(c) Any measures required to mitigate any anticipated adverse effects of the project;

(d) A restrictive covenant requiring the property to be used for dwelling units for homeless individuals or families for a minimum of twenty years. Where

the project proponent only has a leasehold interest with a remaining term of less than twenty years the restrictive covenant may be for less than twenty years, but in no case shall it be less than fifteen years with the option to extend the restriction to twenty years if the lease term is extended; and

(e) Standard clauses that the Coordinator determines to be required, including, but not limited to, the following:

1. Indemnity

3. Termination; and
4. Assignability.

A memorandum regarding the development agreement will be recorded at the Bureau of Conveyances or Land Court against the fee simple or leasehold interest, as appropriate.

Once an agreement is executed and the memorandum is filed, a project will be considered “certified” under the Proclamation. An annual review of every project is required to verify compliance with the conditions under the Project Agreement.

(f) The fully executed development agreements will be posted on the Coordinator’s or other government website.
